SUMMARY

Aspiring Web Developer and B.Tech student with hands-on experience in building responsive cloud-based applications. Strong grasp of frontend technologies, PWA development, and UI/UX principles. Eager to contribute to team success with clean code and user-centric design.

EDUCATION

Ahinsa Institute of Technology <i>B.Tech in Computer Technology</i>	Dondaicha, Maharashtra <i>Aug 2023 – Present</i>
M.H.S.S. High School & Jr. College <i>Higher Secondary Certificate (HSC) Science 63.17%</i>	Shindkheda, Dhule <i>Feb 2023</i>
M.H.S.S. High School & Jr. College <i>Secondary School Certificate (SSC) 77.20%</i>	Shindkheda, Dhule <i>March 2021</i>

PROJECTS

Shaikh Digital ERP <i>HTML, CSS, JS, Firebase, PWA</i>	May 2025 – June 2025
– Developed a cloud-based ERP for the flex printing industry with inventory tracking and GSTR-1 export. – Engineered a dual-printing mode (A4 Invoice & Thermal Receipt) and offline-capable PWA support. – Implemented role-based security (Admin/Staff) and integrated WhatsApp payment reminders. – Live Demo GitHub Repository	
Personal Expense Manager <i>HTML, Tailwind CSS, JS, Firebase</i>	Aug 2025 – Nov 2025
– Built a cloud-powered finance tracker featuring voice input for transactions and multi-account support. – Integrated Chart.js for visual spending analysis and created recurring transaction templates. – Features include dark mode, savings goals tracking, and CSV export for financial auditing. – Live Demo GitHub Repository	
Photo Contest Registration App <i>HTML, CSS, JS, jsPDF</i>	Feb 2025 – Mar 2025
– Created a contest site with real-time photo previews, form validation, and auto-generated certificates. – Live Demo GitHub Page	

EXPERIENCE

Virtual Software Engineer Intern <i>Forage (Simulation)</i>	Nov 2024 <i>Remote</i>
– Completed tasks like feature proposal, object creation, bug fixing, and system improvements.	
Virtual Solutions Architect Intern <i>Forage – AWS Simulation</i>	May 2025 <i>Remote</i>
– Designed scalable, cloud-based hosting architectures in a mock AWS environment.	

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3, Python, Java, C
Frameworks: Bootstrap, Tailwind CSS, Chart.js, Firebase
Tools: Git, GitHub, VS Code, Chrome DevTools, Canva, Postman
Concepts: PWA, Responsive Design, DOM Manipulation, UI/UX Design

COMPUTER SCIENCE FUNDAMENTALS

Data Structures: Arrays, Linked Lists, Trees, Hash Maps
Algorithms: Sorting, Searching, Recursion
OOP: Inheritance, Polymorphism, Encapsulation, Abstraction

SOFT SKILLS & LANGUAGES

Soft Skills: Teamwork, Communication, Leadership, Problem-Solving, Adaptability
Languages: Hindi (Fluent), English (Fluent), Marathi (Native)
