SUMMARY

B.Tech Computer Technology student and aspiring Web Developer with hands-on experience building responsive, cloud-based and offline-capable web applications. Strong in frontend development, PWA, UI/UX, React, TypeScript and Firebase, with practical experience integrating modern browser APIs.

EDUCATION

Ahinsa Institute of Technology <i>B.Tech in Computer Technology</i>	Dondaicha, Maharashtra <i>Aug 2023 – Present</i>
M.H.S.S. High School & Jr. College <i>Higher Secondary Certificate (HSC) Science 63.17%</i>	Shindkheda, Dhule <i>Feb 2023</i>
M.H.S.S. High School & Jr. College <i>Secondary School Certificate (SSC) 77.20%</i>	Shindkheda, Dhule <i>March 2021</i>

PROJECTS

Shaikh Digital ERP | *HTML, CSS, JavaScript, Firebase, PWA* May 2025 – Present

- Developed a cloud ERP for the flex-printing industry with inventory, vendor ledger, supplier-dues tracking and GSTR-1 export.
- Built A4 Invoice/Thermal Receipt printing, offline PWA support, Admin/Staff security, UPI QR invoices and WhatsApp payment reminders.

Shaikh Digital PrintHub — Easy Card Studio | *React, Vite, Tailwind CSS, jsPDF, pdfjs-dist* 2025 – Present

- Building an offline client-side print-shop suite for PVC/ID cards, passport photos and government form photo/signature export.
- Implemented four-corner crop editing, custom card/paper sizing, layouts, undo/redo, templates and exact-dimension PDF export.

FinTrack Pro — Personal Expense Manager | *HTML, Tailwind CSS, JavaScript, Firebase* Aug 2025 – Nov 2025

- Built a finance tracker with voice input, multi-account support and OCR receipt scanning using Tesseract.js.
- Added WebAuthn login, dark mode, savings goals, CSV export, Chart.js analytics and recurring transaction templates.

Faizan-E-Madina Masjid App | *React, Vite, Tailwind CSS* 2025 – Present

- Contributing frontend development through responsive fixes, component bug fixes and toast notification system.

Photo Contest Registration App | *HTML, CSS, JavaScript, jsPDF* Feb 2025 – Mar 2025

- Created a contest registration site with real-time photo previews, validation and auto-generated certificates.

RESEARCH

Digital Minds, Troubled Hearts — Research Paper, JATIR Journal

Co-authored research on technology and mental health among young adults; built the research infrastructure and survey, and authored the formatted paper using real respondent data. Guide: Prof. Kalpesh Marathe | Co-author: Faizan Ataaddin. Presented at departmental evaluation.

EXPERIENCE

Virtual Software Engineer Intern Nov 2024
Forage (Simulation) Remote

- Completed tasks including feature proposal, object creation, bug fixing and system improvements.

Virtual Solutions Architect Intern May 2025
Forage — AWS Simulation Remote

- Designed scalable, cloud-based hosting architectures in a mock AWS environment.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, Python, Java, C

Frameworks & Libraries: React, Node.js, Bootstrap, Tailwind CSS, Chart.js, Firebase, Framer Motion

Tools: Git, GitHub, VS Code, Chrome DevTools, Canva, Postman, Vite

Concepts: PWA, Responsive Design, DOM Manipulation, UI/UX Design, OCR Integration, WebAuthn

CS Fundamentals: Data Structures, Algorithms, OOP | **Soft Skills:** Teamwork, Communication, Leadership, Problem-Solving

Languages: Hindi (Fluent), English (Fluent), Marathi (Native)
